

SEESMART™ CE-LEVEL 1 LIMB PROTECTION

SEESMART™ impact protection technology

SEESMART™

SEESMART™ is the latest innovation in motorcycle protection from our in-house Research and Development team. The thin, extremely flexible yet impact-ready CE-rated protector is ideal for use in items that integrate into daily life.

THE SEESMART™ CONCEPT

With outer shell technologies increasingly enabling us to create stylish yet abrasion resistant riding gear, internal protectors have been the one limiting aspect that is constant across all motorcycling segments. The SEESMART™ concept changes everything. Specifically developed for use in urban motorcycle gear, SEESMART™ offers the highest level of flexibility while passing the EN1621-1:2012 CE-Level 1 impact tests, also in hot (T+) conditions. This development brings us another step closer to our goal of providing the ultimate motorcycle gear in every segment.

SEESMART™ CONCEPT PROPERTIES

 CE-level 1 protection	 High temperature tolerant	 Exceeding protective areas
 Adaptive ergonomics	 Lightweight	 Highly ventilated

IMPACT ABSORPTION: MATERIAL

SEESMART™ is constructed of SEEFLEX2925, the same material as the family of SEEFLEX™ protectors. It offers the same unique molecular structure, allowing the material to transform kinetic energy from an impact into thermal energy. SEEFLEX2925 is a truly unique material which carries excellent impact absorption properties.

HOW IT WORKS: EXTERNAL AND INTERNAL EXPANSION

Visible studs in the SEESMART™ protector are hexagon-shaped and connected by narrow connection bands. This construction enables the protectors to be extremely flexible and remain relatively thin; exactly what a protector designed for clothes that integrate into daily life need to keep from looking like motorcycle gear. The hexagon shaped studs expand externally under impact, allowing them to absorb energy. This combination of external expansion and the use of SEEFLEX2925 material reduces impact energy, giving the protector its impact absorbing properties.

SEEFLEX™

Exceeding the highest level of protection (CE-level 2) in all circumstances and temperatures.

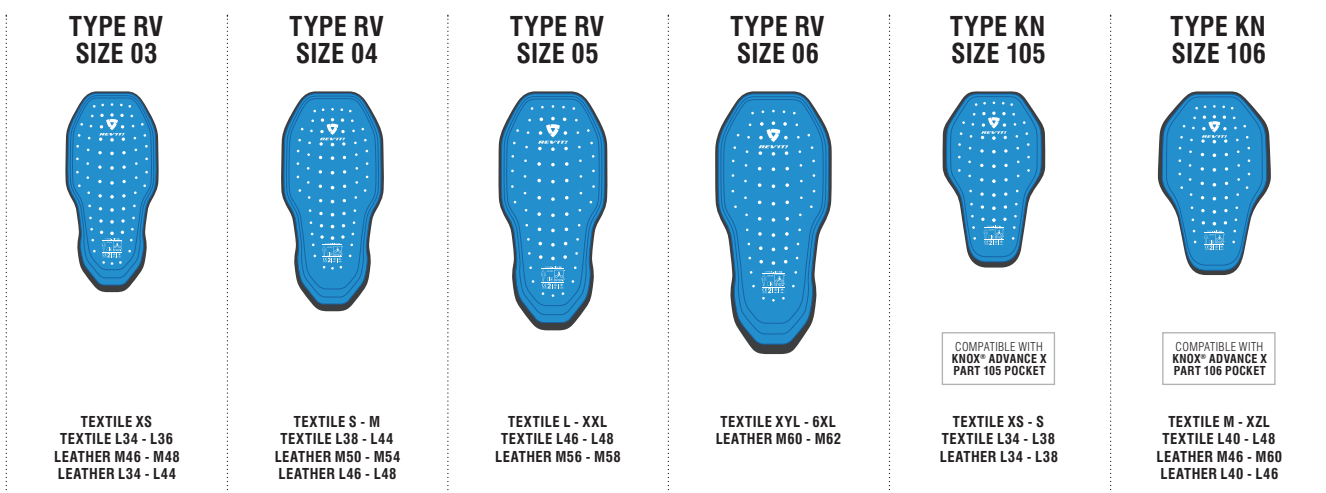

SEESMART™

Offering the highest level of flexibility while exceeding CE-level 1, also in hot conditions.

SEESOFT™

Multiple impact absorption and CE-level 2 protection through shifting layers.
